**ORIGINAL PLACE NAMES IN ARCTIC LANDS**

Explore the StoryMap about original place names and complete the four activities mentioned in the StoryMap. Afterwards, review what you have learned by adding the following layers and information onto your map.

- The borders of the four (4) Inuit Nunangat regions
- The locations of five to seven (5-7) Inuit communities and their place name meanings. Make sure at least one community is located in each region of Inuit Nunangat.
- The boundaries of three (3) national parks

**Your community**

Now that you have learned more about place names and their meanings in Canada’s northern communities, investigate the history behind your community’s name, or the name of a street, building, park, or place located within your community. Share your learnings with the class.
